

Alan

I was thinking and designing on pop up window
I will work on implementing on this
Firebase and React-native

Jason

I was working on vote box, only each user makes one vote
I will continually working vote box
Nothing or Time

Mark

I was thinking about the firebase and put the option list for each user
I will implement that feature
Javascript and React

Veronika

I was trying to figure out how to pull data from the data
I will work on retrieve each vote for each user
Firebase

Yasin

I was working on the task 3 for the voting options
I will work continually work on this task
Time and midterms from other class.
